## SUMMARY

Innovative and detail-oriented developer with hands-on experience in building responsive, user-centric web applications. Proficient in modern web technologies including Node.js, Express, React, Vite, Tailwind CSS, and MongoDB. Skilled in implementing role-based access control, RESTful APIs, and JWT authentication. Currently pursuing a Master's in Artificial Intelligence and Machine Learning, combining scalable software engineering with strong analytical and problem-solving capabilities.

## WORK EXPERIENCE

### Web Developer Intern (Remote)

#### Auro Tech Solutions

April 2023 - May 2023, Tamilnadu

- Developed and maintained **responsive, cross-browser web applications** using **HTML, CSS, and JavaScript**, ensuring optimal performance across devices.
- Applied **front-end best practices** including modular code architecture, semantic HTML, and **WCAG accessibility standards**.

## PROJECT

### Employee management System

[ruhithems-roan.vercel.app](https://ruhithems-roan.vercel.app)

- Engineered an employee management system that automated HR workflows, centralized staff data management, and simplified payroll processing for enhanced organizational efficiency.
- Instituted advanced permissions modules that streamlined onboarding processes, unified attendance tracking, and strengthened data security across the organization.
- Integrated performance evaluation features that facilitated goal setting, enabled real-time feedback, and fostered continuous professional development within teams.

### CloudSync

[Cloudsync.vercel.app](https://cloudsync.vercel.app)

- Developed a cloud synchronization system utilizing React and Express.js, enabling users to upload files to the cloud while preserving local backups for enhanced reliability.
- Established an auto-restore functionality that identifies deleted files in the cloud and automatically retrieves them from the local copy..
- Crafted an effective backend workflow featuring RESTful APIs for file management, guaranteeing secure and real-time synchronization between local and cloud storage.

## EDUCATION

### Bachelor of Computer Science and Physics

Nrupathunga University • Bengaluru • 2024 • 8.3

### Masters In Information Technology

Garden City University • Bengaluru • 2025 • 9.1

## CERTIFICATIONS

### Building AI Powered Chatbots

Coursera • 2024

- developed practical experience in creating and implementing AI-powered chatbots through API interfaces, machine learning, and natural language processing.

### Machine learning with Big Data

Coursera

- Developed and deployed machine learning models for large-scale datasets using Hadoop and Spark, applying data preprocessing, feature engineering, and predictive analytics to extract insights and enable data-driven decision-making.

## SKILLS

Languages: Java, python, C, javaScript, typeScript, SQL,

Frameworks/Libraries: Node.js, Express, Fast API, React, , Bootstrap, Tailwind CSS, Next.js

Data/Tools: MongoDB, MySQL, Firebase, Git, Github, PostgreSQL
